# Our Story

Founded by husband and wife Kevin and Suze, Nini Baby Global was born from their first experiences of parenthood.

During those initial months with their firstborn, they struggled with sleep until Kevin's mum lent them a traditional swinging cot that Kevin had slept in as a newborn. Desperate for rest, they decided to give it a try. To their surprise, this simple yet effective device worked wonders.

It was just a sling attached to an A-shaped frame, swaddling their son and allowing them to swing him gently from side to side. This mini-hammock-like device quickly became their sleep savior, rocking their baby boy to sleep in minutes. As they researched, Kevin and Suze discovered that similar devices have been used in Asian, and Eastern cultures for thousands of years to help babies sleep. Realizing the effectiveness of this age-old technique, they were inspired to share it with other parents.

In 2017, they embarked on a three-year journey to create the NiniPod, rethinking traditional designs to suit modern families while adhering to UK safety standards.

Nini Baby Global started with one product, the NiniPod, and has since expanded its range. Today, we offer a variety of baby products, including Baby Nests, Crib Bedding Sets, Bassinet Bedding Sets, Fitted Sheets, Cot Mobiles and Baby Carrier. Our goal is to provide parents with innovative solutions for better sleep and comfort for their little ones.

Redefining 'Sleep like a baby', the NiniPod embraces millennia-old techniques of using swinging and bouncing motions to create wonderfully natural movement, and along with the Nini Swaddle helps your baby get snug and calm, quickly. With increased airflow compared with other cribs, the NiniPod is fully breathable, helping to regulate your baby's temperature and creating a safe space for a comfortable night's sleep. Mesh screens all around allow you to keep your baby in sight at all times, and best of all, the NiniPod packs away in just minutes so your baby can enjoy home away from home.
